**ABOUT THIS FORM**

Finding the right doctor that suits your illness and symptoms can be challenging. Approximately two-thirds of the people who contact me for consultation are appropriate. They have problems I work with and have success with. Some people are looking for an alternative therapy when conventional medicine is the appropriate choice, while others seek out conventional medicine when an alternative approach is more likely to help them. Most people who contact me have been struggling with health issues for a long time, often years. The doctor-patient relationship is one of the most important ingredients in your healing journey. It's my job to pre-screen people so that I can make a decision about whether you and I are likely to be a good fit...and whether my approach is the best one for you at this time. Thank you for taking the time to answer the questions on this form.

**You may email, or fax this form to 760-487-7737. Do not fax more than 8 pages.**

## Chemical Sensitivity/Reactivity to Supplements

- I have experienced toxic exposure that is:  mild  moderate  severe
  - I have been told that I have a problem with methylation.
  - I have  mild  moderate  severe problems tolerating nutritional supplements.
- List all nutritional supplements you react to or have problems tolerating, and describe these reactions. If you react to numerous supplements, please type the details on a separate piece of paper. For each nutritional supplement you react to, state if the reaction is mild, moderate, or severe:
